1972 DEDICATION

In conjunction with our expression of appreciation and gratitude to those who have contributed so much to our class, we dedicate the 1972 Compass to Mr. Robert Cormier and Mr. Raymond LeMay.

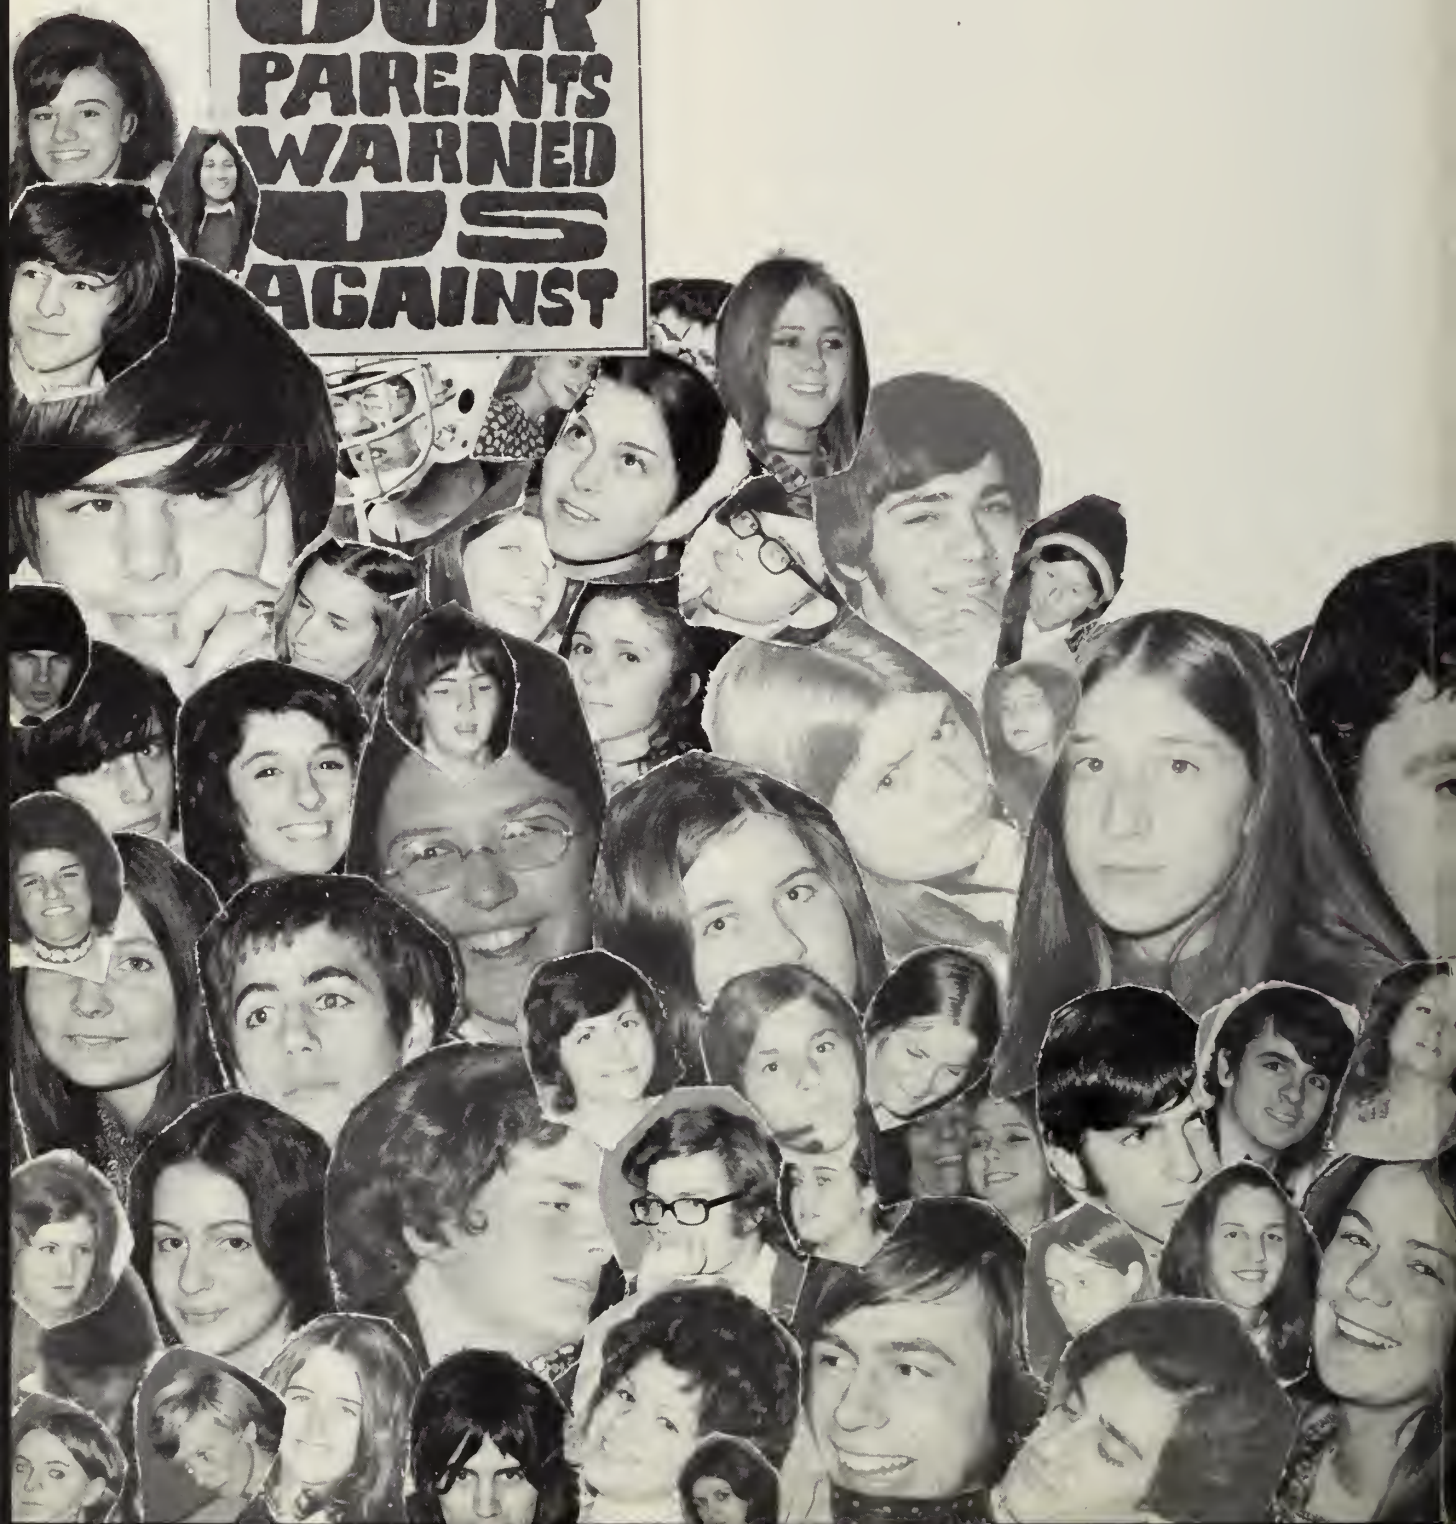

Mr. Cormier has worked very closely and carefully with the students since he came to Grafton last year. He has been earnestly involved in student government, and through his liberal tendencies has promoted progress and achievement at Grafton High School. His enthusiasm and encouragement have stimulated and enlightened the interests and involvement of many students within and outside the scholastic realm. Mr. Cormier's character has provided an influence of strength and freshness to the student body.

Universal acceptance is the basic admirable quality in Mr. LeMay which has played such an important role in our development and ease during our years at Grafton High. Very few people have ever hesitated to approach him due to his interest in all students and his sensitivity to our problems. He has a rational susceptibility to new ideas which has helped to promote new and improved policies in our school during recent years.

The students of the class of 1972 have considered and will remember these two as understanding friends and dedicated guides.
